

Government

September 15, 2000

Dear Editor,

America has not become a great nation because of the blessings bestowed upon us by God. We have become a great nation because God has given us the ability to overcome evil.

The officials at the Orange County Health Dept. who are all “just doing their duty” are part of the evil cancer permeating America. They have taken away our God given creativity, our health, many livelihoods, our right to run our own business as God sees fit, and our rights given to us by our Constitution.

They should all be tried for treason. Not only will we overcome their dictatorship with God’s help, but those who feel the thrill of power will soon find themselves shamed and powerless.

Marie
